Time Trials Drivers Grab Points and Lap Records At Gateway

Those that missed GATEWAY on April 17th and 18th missed a phenomenal event! Weather was perfect, and once again, records fell faster than politicians can flip flop on issues. Five new records were set in Time Trial, including Nathan Pitcher in TTB with a 1:08.750, David Proudfoot in TTC with a 1:09.729, Joe Sullivan in TTE with a 1:13.179, Mike Weber in TTF with a 1:17.094, and David Lowum in TTU with a 1:12.445. We also welcomed several new folks to the TT ranks, including Russ Vester, Dave Connally, and Pat McGinnis. I thought the battle between Nathan Pitcher and Jeff Vance was the best of the weekend. In the 3rd round on Sunday Vance had a .013 of a second lead on Pitcher. Then, in the final round of competition, Pitcher found that little bit extra to secure a victory. Congratulations Nathan. Thanks once again to our sponsors at HAWK and HOOSIER. I look forward to seeing you all at Putnam in a couple weeks!
